

House Bill 6818

I live on the line of Enfield and Massachusetts. It would be an undue burden to me for you to pass this bill. I often visit my Sister and her family, my Son and Daughter-in-Law and Grandchildren who live over the line. We often shop up in Massachusetts because it is closer than going to Manchester. Often we do just walk around our little Mall in town. The reasons I believe the tolls would also cause a large amount of traffic, fumes and worsen the Asthma and lung problems in the area, me being one of them and no I do not and never have smoked. Many of the tolls were stopped or taken down because of traffic, air pollution and causing congestion in traffic. I feel people know the area will get off our exit, go down route 5 and hop onto the Highway further causing congestion at the intersection of Booth Road. It may be nothing for those of you in the center of the state but it is very important to me that they are NOT implemented. Please listen to someone very close to the border. I say no to Border Tolls

Thank you for your attention to this,

Susan Metzler Marusak
